

CAR SEAT AWARENESS MONTH

FORWARD-FACING 101

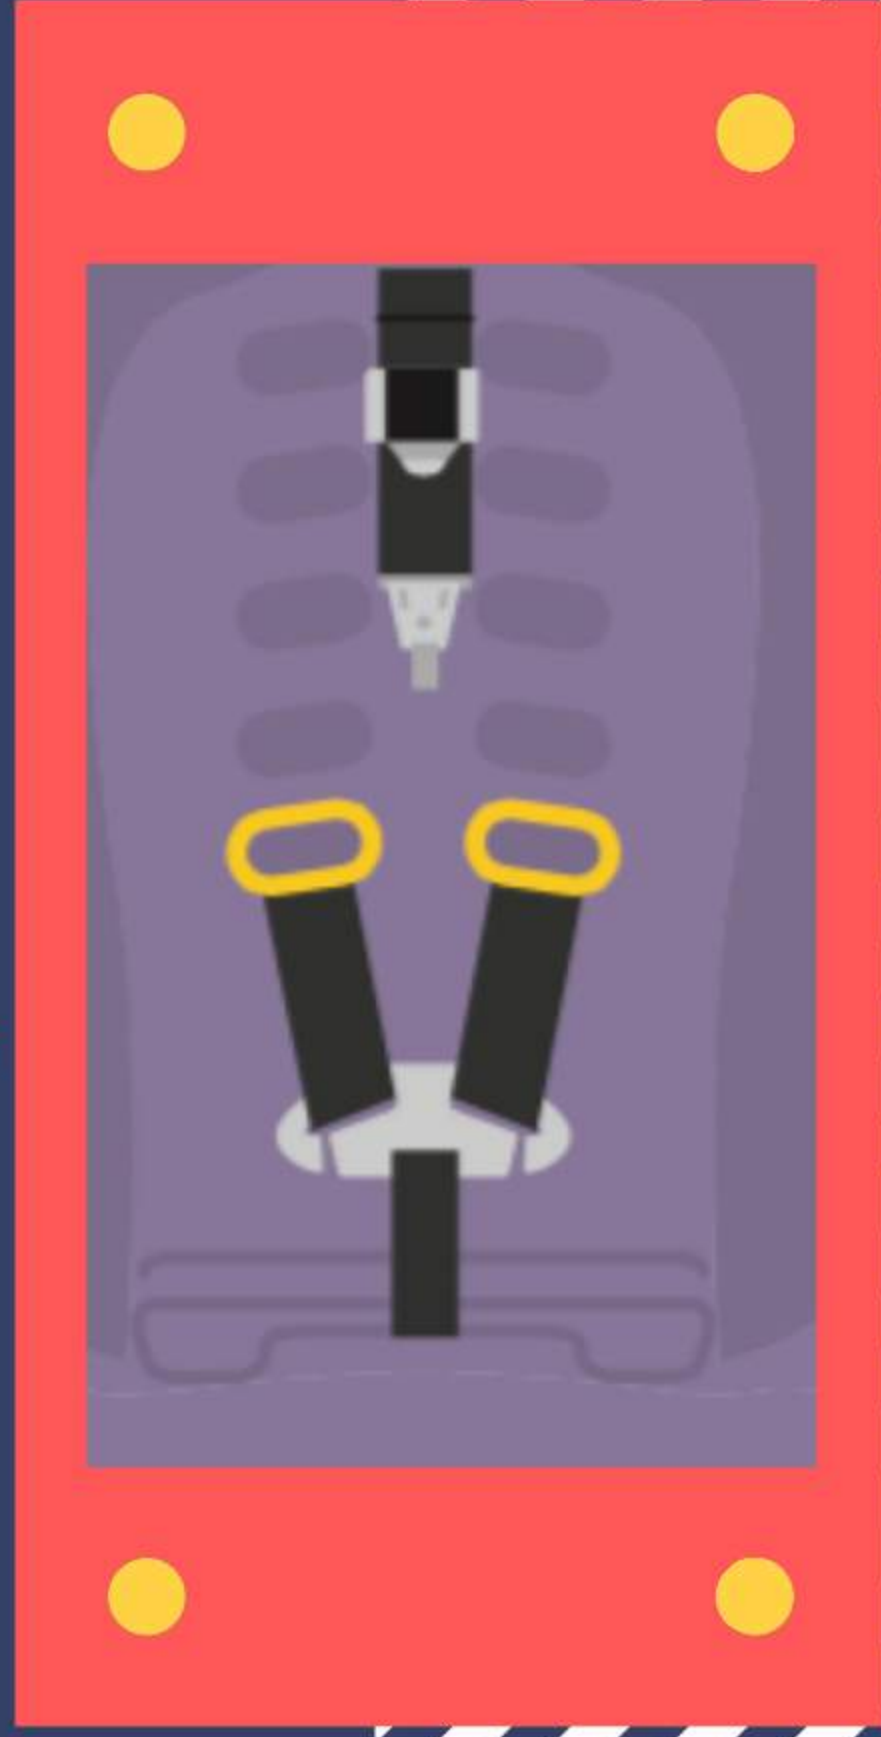

#REMEMBERTHEFIVE

1

proper placement

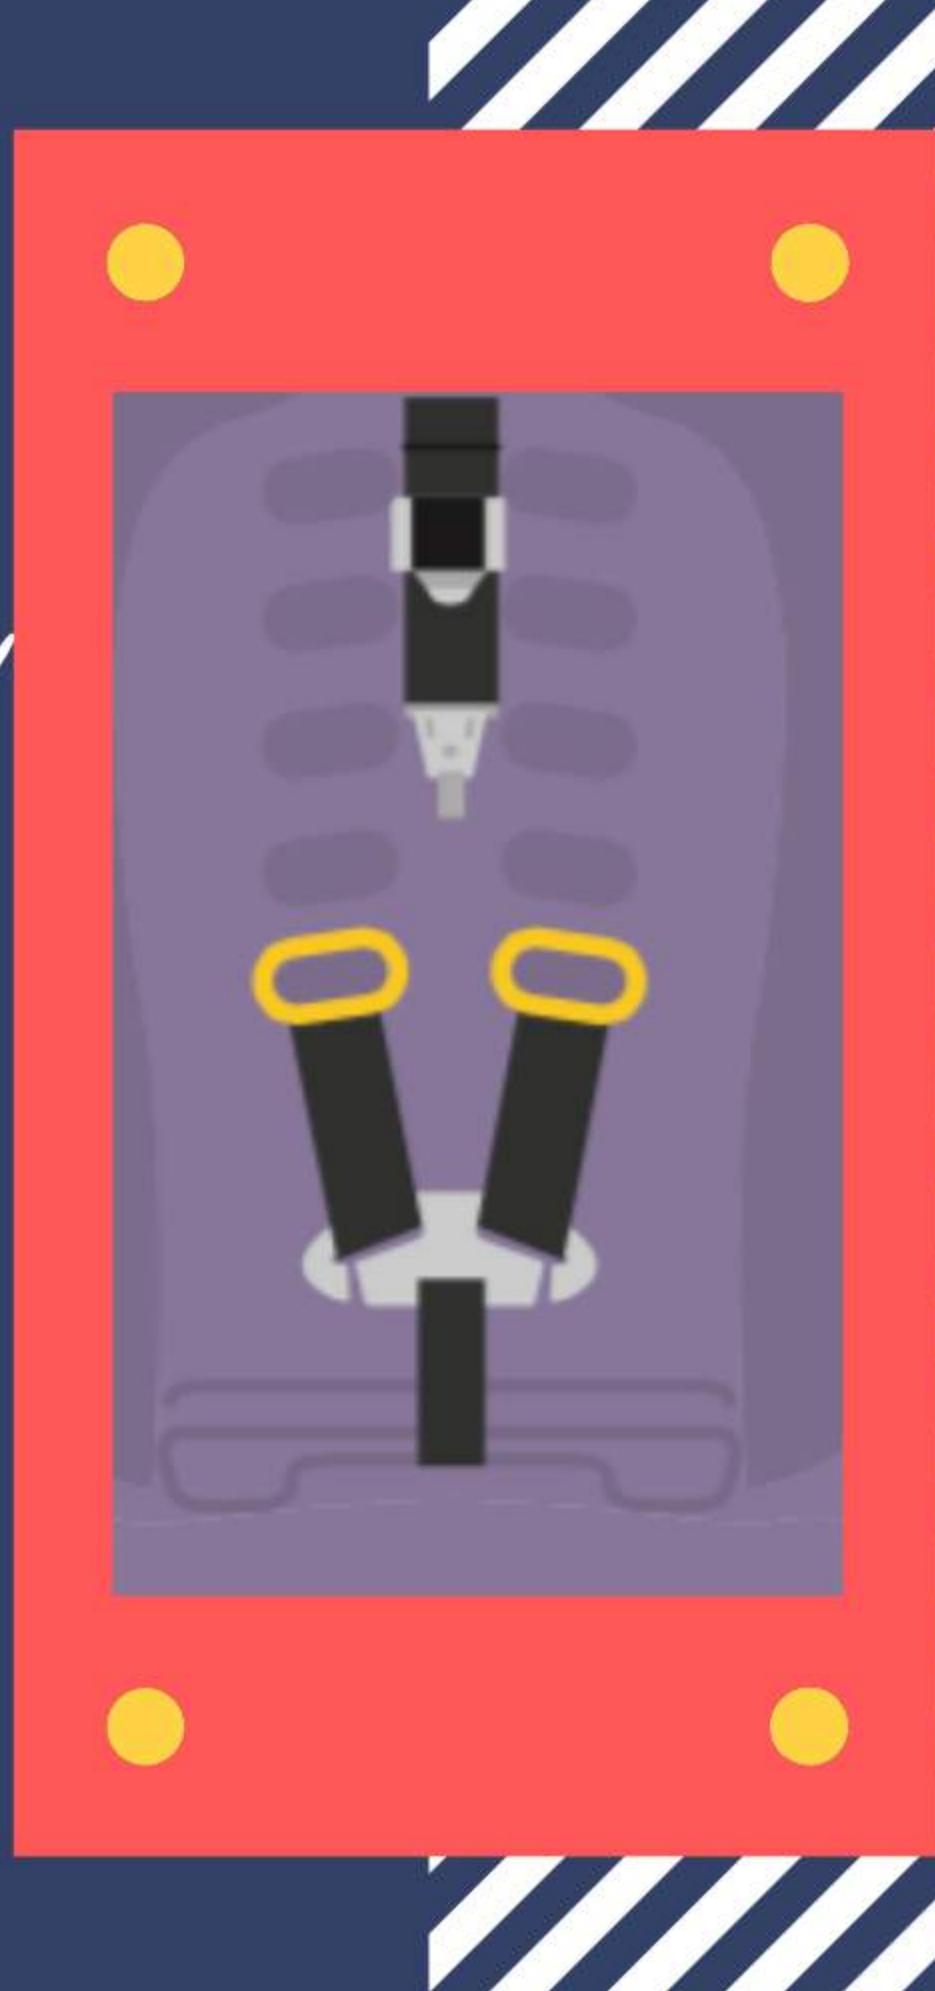

Shoulder harness should be **AT** or **ABOVE** shoulders and chest clip should be **EVEN** with their arm pits

2

top tether

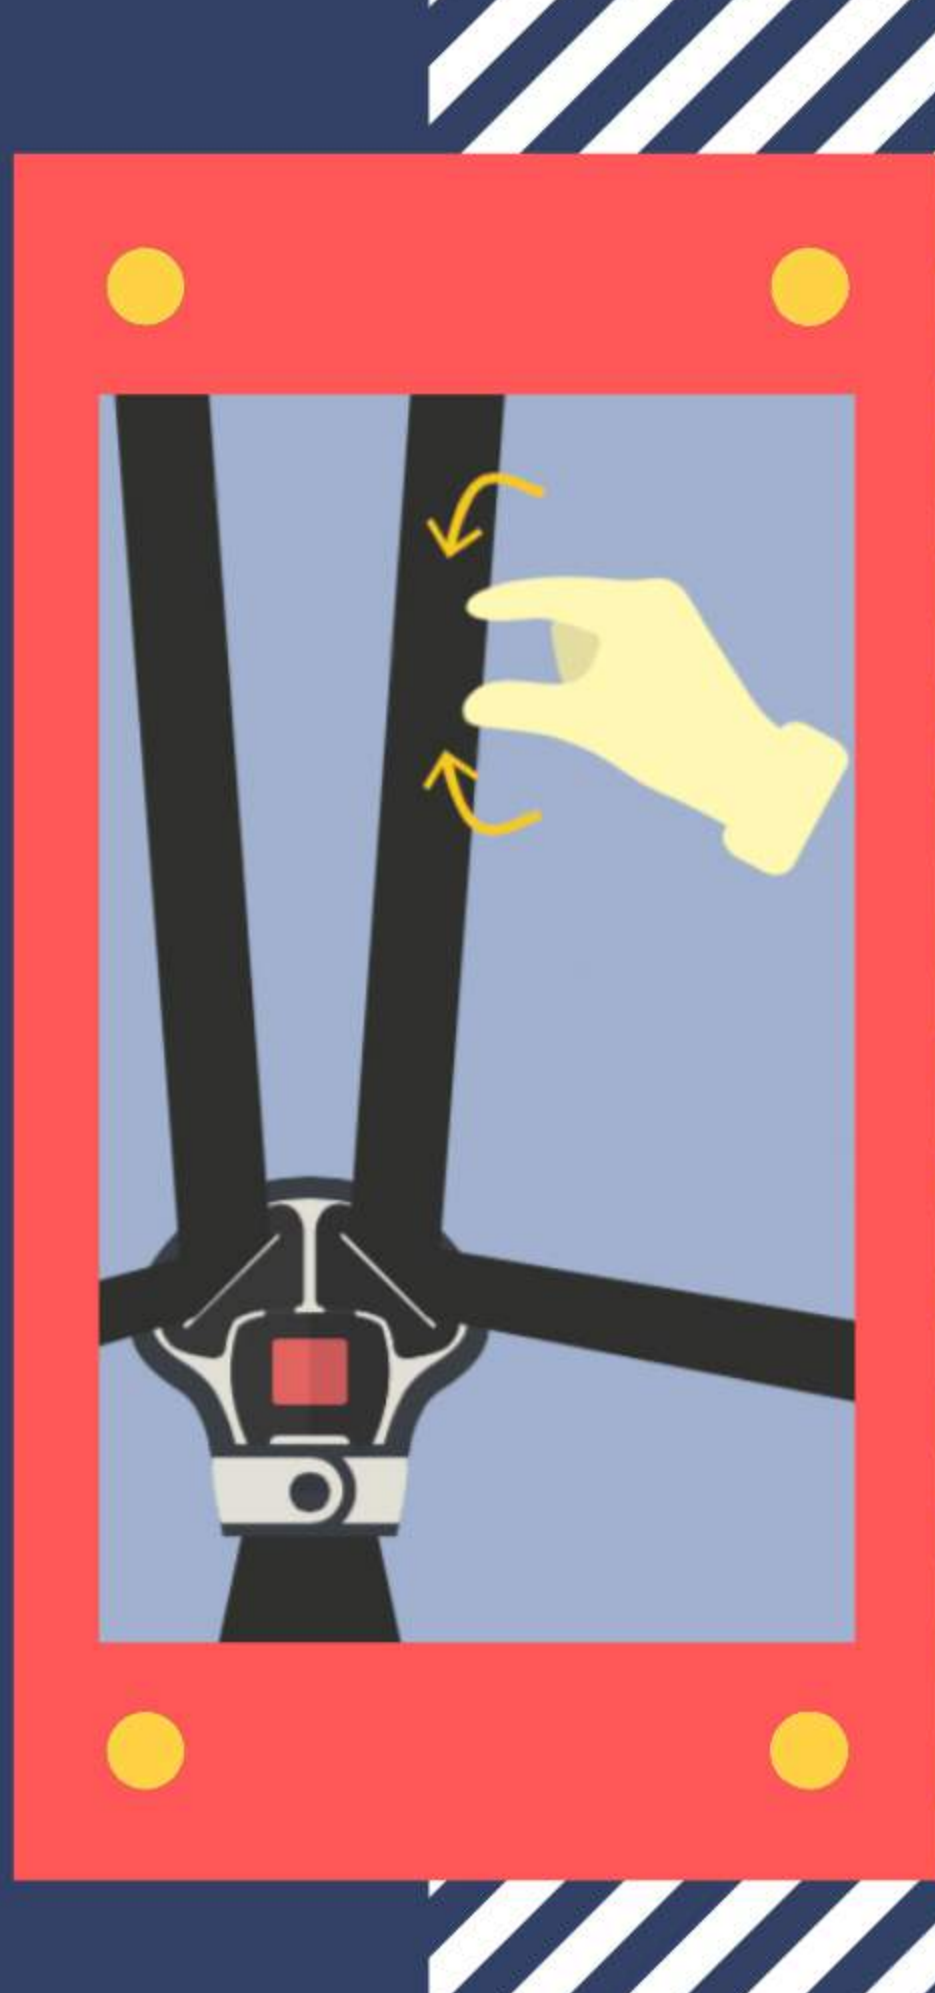

prevents forward-facing car seat from tipping forward

3

pinch test

you should not be able to pinch the straps

4

latch

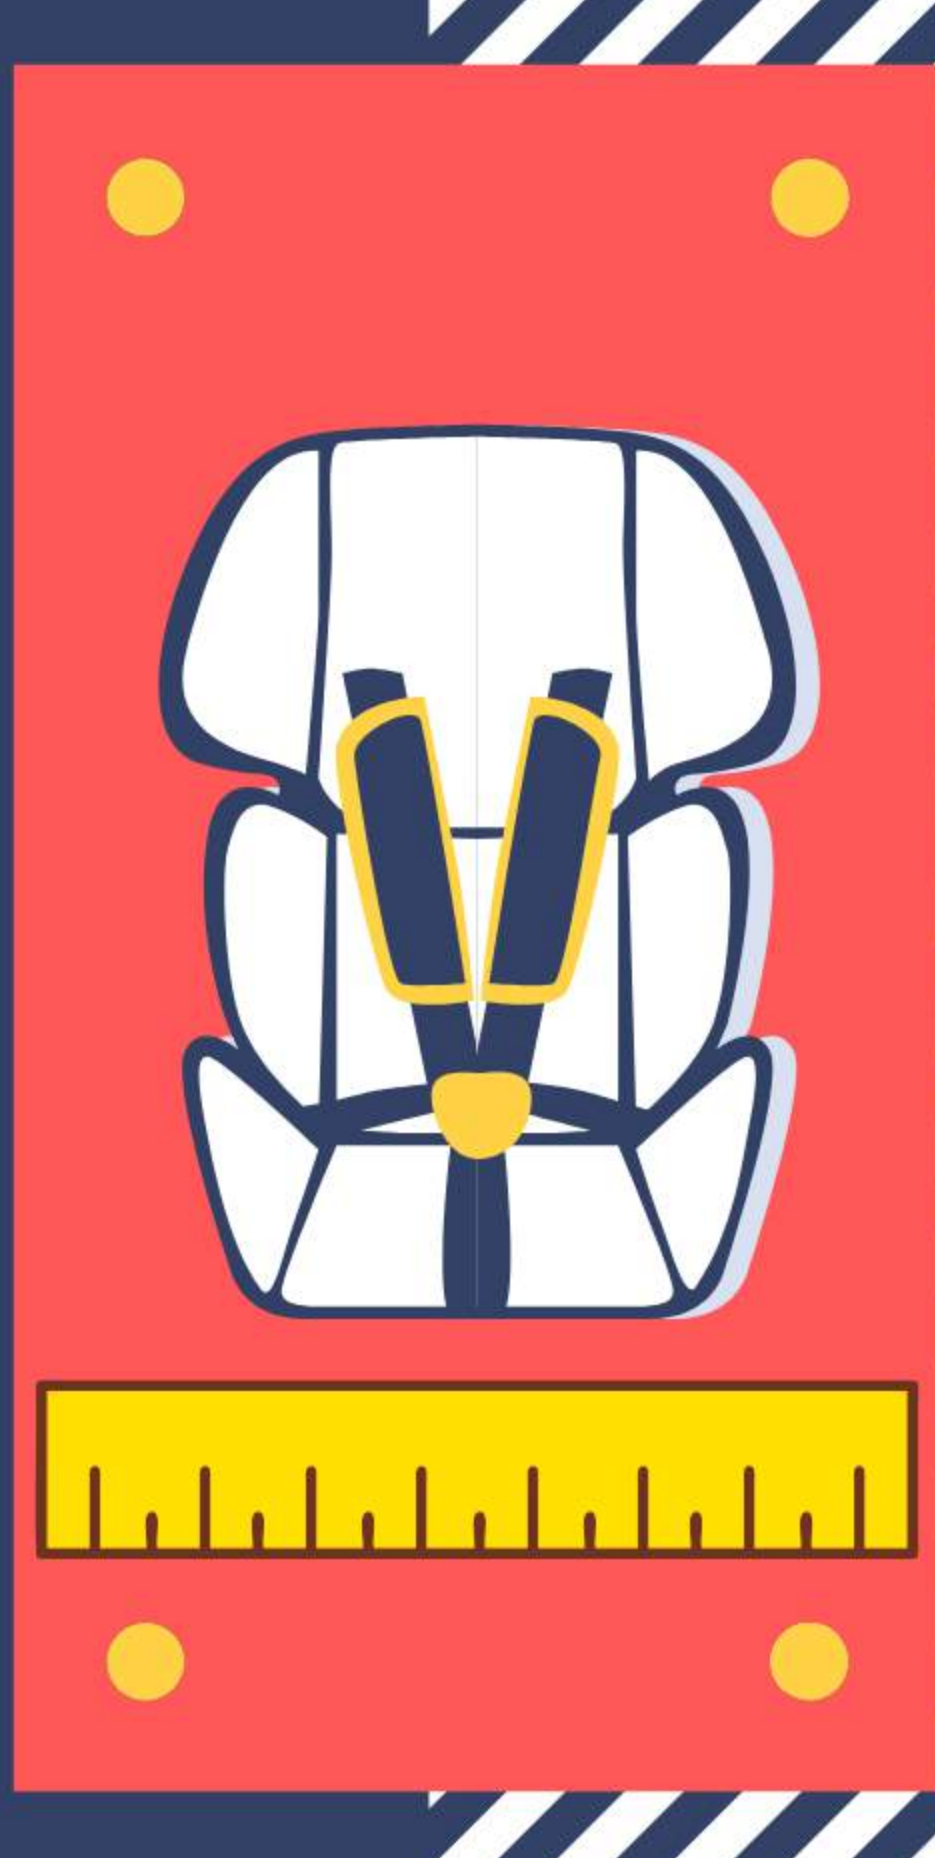

know the weight limit for your "Lower Anchors and Tethers for Children" System found in your vehicle manual & car seat manufacturer instructions

5

shake test

Give the car seat a good shake. A properly installed car seat will **NOT** move more than one inch
